LB 694, 694A

you it's not what you know, it's who you know in passing a test. I don't believe that the people of the State of Nebraska should be put through any difficulty whatsoever if they have not had a moving violation within the four year period. Let's give the people in the state some incentive to be careful drivers. I, myself, am very, very careful when I am driving and I have never had a moving violation. I know what the rules of the road are, but I, too, am like the rest of the people in the state, am fearful of taking the test. On General File I told you that I was told if I went to a certain testing station I would be given help, and was assured that I would pass the test. I don't think that any one of us in the state should be given any privileges or any deals made. I mentioned it before, in the State of Nebraska I did not know that you could call and make arrangements to have an examiner come out to your home, as they do out in the country, and have somebody help you take the test. If this was done in Omaha, we'd certainly have to hire several examiners to come out and help the people in Omaha because I would certainly encourage them to do that if this bill does not pass.
